

CONDITIONS AT WEST END MINE ARE EXCELLENT

Heavy Tonnage of Ore is Being Mined from the West End and Ohio Shafts

EARNING IS BEING INCREASED

Outlook is Favorable for Property Making Heavy Earning During Coming Year

During the week ending Saturday, December 16, the West End Consolidated Mining company produced 1750 tons of ore carrying the usual values. The physical condition of the mine is reported as being excellent and the earning is being gradually increased. The official report of operations follows:

West End Shaft

From the West End shaft workings, drift 347 made fair progress without change to report. Crosscut 348 made fair progress in Mizpah trachyte. Drift 404 A made fair progress in ore of good grade. Drift 404 B has been started to the east from 404 drift A. Crosscut 441 B has been suspended and raise 441 A has been started. Crosscut 482 No. 1 made a fair advance without change to report.

Ohio Shaft

From the Ohio shaft workings, drift 418 No. 1 made fair headway on low grade ore. Raise 540 No. 1 made a connection and stopping operations have been started. Crosscut 553 made a small advance with no change to report. Raise 554 made small advance without change to report. Raise 554 made small headway on ore of fair grade. Work in raise 555 has been resumed on drag ore. Raise 556 made fair headway without any change to report. Raise 557 has reached the hanging wall of the vein. Drift 555 No. 2 made a fair advance without change to report. Drift 805 No. 2 made fair progress in low grade vein material. Crosscut 802 made the usual advance without any change to report.

Regular progress was performed in Tonopah 76 ground with no change to report. Mill tonnage for the week was about 1750 tons.

TONOPAH M. CO. IS PRODUCING BIG TONNAGE

Desert Mill is Operating on Three Eight-Hour Shifts With Great Results

Tonopah Mining company made a splendid record for the week ending Monday, Dec. 17 with a production of 1550 tons and development of 2155 feet. The official report follows:

Silver Top Shaft

Crosscut 399 was continued to the southward 245 feet, with no change. Drift 381 was advanced 25 feet along into drift 381. Raise 389 labeled into drift 381. Progress 16 feet. Crosscut 387, work was resumed for prospect purposes. Progress 16 feet. Drift 641 was advanced 4.5 feet. Raise 713 was advanced 16 feet with no change. Development for the week, 115 feet. Stopping from the various veins in this section of the property produced 600 tons of mill ore.

Mizpah Shaft

Intermediate drift 369 was advanced 36 feet in ore, breaking into intermediate drift 333 A. Intermediate drift 377 was advanced 19 feet with no change. Intermediate drift 383 was advanced 65 feet in ore. Raise 387 was advanced 125 feet, holding in to drift 387 intermediate. Crosscut 391 advanced 7 feet holding into raise 1007. A intermediate intermediate drift 384 was advanced 25 feet along the foot of Mizpah slope. Development for the week, 1005 feet. Seven hundred tons of ore were shipped to the mill from this section of the property.

Sand Grass Shaft

Intermediate drift 1025 advanced 18 feet on the upper Sand Grass vein. Raise 1169 was advanced 6 feet on mill ore. Development for the week, 25 feet. Stopping from this section of the property produced 250 tons of mill ore. Total development for the week, 2455 feet. Total tonnage for the week, 1550 tons.

BELMONT MAKES GOOD HEADWAY IN DEVELOPMENT

Mine is Showing Large Ore Reserves in Various Levels of the Workings

WORKING IN BUCKEYE SHAFT

Operations are Being Prosecuted on the 1400-Foot Level of That Property

Tonopah Belmont continues to give a good account of mining operations and the usual production is being made. The showing throughout the various workings is reported as being up to expectations. The official report of development for the seven-day period ending Thursday, Dec. 14, follows:

800 level—A west drift has been started off of northeast crosscut 850 on a foot and a half of quartz. Raise 75 has been put up on a foot and a half of ore developed by the intermediate east drift off of raise 850. Raise 76 has been following a foot and a half of quartz.

900 level—West drift 9035 has been advanced a short distance on the Favorite vein and shows a foot of quartz. East drift 9073 has been advanced a short distance on the Mizpah vein and shows a foot of quartz. Work has been resumed in east drift 9008 which is being driven on a small streak of quartz. Southeast crosscut 9102 is prospecting for a segment of the South vein. West drift 9104 is being driven on a foot of quartz, the South vein. Raise 100 has been started on a small streak of ore found in southeast crosscut 9075.

1000 level—The intermediate west drift off of raise 121 is being driven on the Favorite vein and the drift is following a foot of ore. North crosscut 10078 is being extended in stibnite to prospect for a segment of the South vein. Northwest crosscut 10081 has been started off of north crosscut 10016 to prospect for the Favorite vein. South crosscut 10017 is being extended in trachyte. Raise 130 is being driven on the South vein and will be driven to connect with the level above.

1100 level—East drift 11023 is following a foot of quartz found in south crosscut 2. Southeast crosscut 11016 is being extended

in trachyte in the footwall of the Belmont vein.

Raise 137 is prospecting for ore developed on the 1000 level. Raise 138 has cut the South vein and will be continued to connect with the 1000 level.

1200 level—East drift 1252 has been following a foot of quartz in the footwall of the Belmont vein. Intermediate northeast crosscut off of east slope 7 is prospecting the footwall of the Belmont vein. Raise 69 is being driven on the purpose of ventilation and will connect with the 1100 level.

1500 level—Southwest crosscut 1505 has been advanced a short distance. Southeast crosscut 1507 has been advanced the usual distance.

East drift 1403 and west drift Buckeye shaft, 1400 level—1404 are being extended as usual.

ASSESSMENT NOTICE

New Tonopah Dividend Mining Company

Location of principal place of business, 419 State Bank building, Tonopah, Nevada. Property situated in the Gold Mountain or Divide district, Esmeralda county, Nevada.

Notice is hereby given that at a meeting of the board of directors held on the 4th day of November, 1922, an assessment (No. 5), of one 111 cent share was levied upon the outstanding capital stock of the corporation, payable immediately in United States gold coin, to the secretary, at the office of the corporate secretary, Nevada.

Any stock upon which this assessment shall remain unpaid on the 25th day of December, 1922, will be delinquent and advertised for sale at public auction, and unless payment is made before, will be sold at the office of the company, 419 State Bank building, Tonopah, Nevada, on Saturday, January 20th, 1923, at 3 o'clock p. m. to pay the delinquent assessment, together with the cost of advertising and expenses of sale.

By order of the board of directors, T. P. GILLMAN, Secretary, Nevada, N. V. 1215, Tonopah, Nevada, N. V. 1215, Dec. 15, 1922.

I've tried them all
but give me a Camel

I'm through experimenting. No more switching.
No more trying this and that. It's Camels for me—
every time.

They're so refreshing! So smooth! So mellow mild!
Why? The answer is Camels exclusive expert
blend of choice Turkish and Domestic tobaccos.
There's nothing like it.

No other cigarette you can buy gives you the real
sure-enough, all-day satisfaction that comes from the
Camel blend. Camel is the quality cigarette.

Give Camels a tryout. Buy a pack today. Get your
information first hand. You'll tie to Camels, too.
